OBJECTIVE

Motivated B.Tech Computer Science student specializing in AI/ML and Full Stack Development. Experienced in building real-world AI-powered applications including automation systems, intelligent agents, and full-stack dashboards. Strong foundation in Python, machine learning, and scalable web systems, with a focus on solving practical problems using AI.

SKILLS

- Python • JavaScript • TypeScript • C • Java React • Node.js • Flask • Vite NumPy • Pandas • OpenCV
- NLP Basics PostgreSQL • MongoDB Git • REST APIs • Automation • System Design Basics

EDUCATION

B.Tech in Computer Science Engineering(1st Year) | CGPA - 8

📅 Aug 2025 - Aug 2029

ITM Skills University 📍 Navi Mumbai, Khargahr

PROJECT EXPERIENCE

AI Code Reviewer (Full Stack + AI) 🔗

Built an AI-powered code review platform that analyzes code quality and suggests improvements
Integrated LLM-based logic for automated feedback and optimization suggestions
Developed full-stack architecture using React, Node.js, and API-based AI integration
Focused on improving developer productivity and code quality

JARVIS – AI Agent (Telegram + macOS Automation) 🔗

Developed a personal AI assistant capable of controlling system operations via Telegram
Implemented features like web browsing, file management, and task automation using Python
Integrated natural language interaction for seamless user control
Designed modular architecture with agent + tools system

AI Productivity Dashboard (Full Stack System) 🔗

Built a full-stack productivity platform with task management and AI-powered insights
Implemented backend using Node.js and PostgreSQL with scalable architecture
Developed frontend with React and real-time analytics dashboard
Added smart assistant features for automated planning

Hand Gesture & Emotion AI System 🔗

Created a computer vision system to control devices using hand gestures
Implemented real-time emotion detection using deep learning
Used OpenCV and Python for gesture tracking and interaction
Combined AI + human-computer interaction for innovative control system
